Austin, Texas 78711-3087

Re: Phase II MS4 Annual Report Transmittal for Town of Clint
TPDES Authorization: **TXR040624**

Dear Team Leader:

This letter serves to transmit the required annual report for the Texas Pollutant Discharge Elimination System Small Municipal Separate Storm Sewer System General Permit, Authorization Number TXR040624 for the Town of Clint.

The annual report is for Year 7. The reporting period is beginning 10/01/2024 and ending 09/30/2025.

A separate Notice of Change has not been submitted based on the fact that changes have not been proposed for the next permit year.

As required by the general permit, a copy of the report has been mailed to the TCEQ's regional office 6 in El Paso, Texas.

Sincerely,

Ramon Cano

Town of Clint, Mayor

TCEQ-20561 (Rev July 2019)

Page 1

Phase II (Small) MS4 Annual Report Form
TPDES General Permit Number TXR040000

A. General Information

Authorization Number: TXR040624

Reporting Year (year will be either 1, 2, 3, 4, or 5): 7

Annual Reporting Year Option Selected by MS4:

Calendar Year: _____

Permit Year: _____

Fiscal Year: X Last day of fiscal year: (09/30)

Reporting period beginning date: (month/date/year) 10/01/2024

Reporting period end date: (month/date/year) 09/30/2025

MS4 Operator Level: 1 Name of MS4: Town of Clint

Contact Name: Susana Rodriguez Telephone Number: (915)-851-3146

Mailing Address: P.O. Box 350 Clint, TX 79836

E-mail Address: townofclint@sbcglobal.net

A copy of the annual report was submitted to the TCEQ Region: YES X
 NO Region the annual report was submitted to: TCEQ Region 6

B. Status of Compliance with the MS4 GP and SWMP

1. Provide information on the status of complying with permit conditions:
 (TXR040000 Part IV.B.2)

	Yes	No	Explain
Permittee is currently in compliance with the SWMP as submitted to and approved by the TCEQ.	X		It is in compliance with SMP
Permittee is currently in compliance with recordkeeping and reporting requirements.	X		The city is in compliance with recordkeeping and reporting requirements

Permittee meets the eligibility requirements of the permit (e.g., TMDL requirements, Edwards Aquifer limitations, compliance history, etc.).	X		No TDML or impaired body
Permittee conducted an annual review of its SWMP in conjunction with preparation of the annual report	X		

2. Provide a general assessment of the appropriateness of the selected BMPs. You may use the table below to meet this requirement (**see Example 1 in instructions**):

MCM(s)	BMP	BMP is appropriate for reducing the discharge of pollutants in stormwater (Answer Yes or No and explain)
1.Public education and outreach	Develop a website for the city of Town of Clint	Yes, Website has been developed. Stormwater information is in progress to be included in this web site.
3.Illicit discharge detection and elimination	Develop list and map of all MS4 storm water outfalls in priority area	Yes, 2 outfalls have been identified.
2.Public involvement and participation	Public meeting participation	Yes, Public Meeting being performed during the monthly Council meeting. Sig-in sheet is being implemented
4.Construction Site Stormwater Runoff Control	Develop and adoption of an ordinance to enforce land developers to ensure the adequacy of the installation, maintenance operation, and repair of all construction and post-construction run-off control measures.	Yes, there is an ordinance, but this adoption is general, it needs modification to be more specific to meet this MCM.
4.Construction Site Stormwater Runoff Control	Site inspections to determine compliance with municipal regulations, ordinances or programs related to MS4	Yes, inspections are performed in a monthly basis according to work orders and a form being filled out.
5.Post-construction stormwater management	Address post-construction issues in areas with pollutants of concern	Yes, Post-construction inspection being performed.

3. Describe progress towards achieving the goal of reducing the discharge of pollutants to the MEP. If no progress was made or the BMP did not result in a reduction in pollutants, provide an explanation. Use the table below to meet this requirement (**see Example 2 in instructions**):

MCM	BMP	Information Used	Quantity	Units	Does the BMP Demonstrate a Direct Reduction in Pollutants? (Answer Yes or No and explain)
1.Public education and outreach	Develop of stormwater brochure	Distribution to houses by mail, also available at Clint offices, Public Library and Post Office	200	Storm water brochure.	No, though this BMP does not result in a direct reduction of pollutants, educating the citizens will eventually reduce litter, hence pollutants.
1.Public education and outreach	Annual public events not limited to Clean Up	Event location at town of Clint office	1	Event	Yes, a clean-up event was organized.
4.Construction site stormwater	Conduct site inspections	Construction activities	8	Inspections	Yes, construction activities by home owners. We can evaluate if proper BMPs are in place to reduce sediment discharge and erosion.
5.Post – construction stormwater	Conduct quarterly inspections	Inspection to identify structural runoff control	4	Inspection	Yes, the inspections were performed.

4. Provide the measurable goals for each of the MCMs, and an evaluation of the success of the implementation of the measurable goals (**see Example 3 in instructions**):

MCM(s)	Measurable Goal(s)	Explain progress toward goal or how goal was achieved. If goal was not accomplished, please explain.
1	Material to be distributed to the all schools and the community residents. At minimum 200 brochures will be distributed.	Met the goal. 200 Brochures were on-hand delivery during the year, by email and also available at Town Clint offices and Post Office
1	Develop a semi-annual newspaper and distribute at community center and 1 community events	Did not meet the goal. Inclusion of stormwater articles in the current newsletter was not done, but a public events-clean up was organized.
2	Document records of stake holders, businesses, government offices and citizens	Met goal. Residents, Mayor, Council, Office Staff, Town accountant, City attorney, Chief of Police and some contractors were identified. No new ones were identified for this period of reporting.
2	Prepare sing-in sheet and minutes of the meeting. Once a month meeting.	Met goal. Public meetings were performed during the Council meeting once a month.
3	Develop written IDDE program. Develop a list and map of outfalls.	Did not meet the goal. Written IDDE program was not elaborated. The current ordinances need address more specific to MS4. List and map of outfalls are currently performed but not finished, yet.
4	Conduct site inspections. Develop a procedure and a brochure to land developers and contractors. Develop and adoption of ordinance	Met the goal. 8 of 8 construction activities were inspected, but written procedure to land developers and contractors were not developed, including the adoption of an ordinance to enforce land developers.
5	Conduct an inventory of structural storm water controls, inspections. Develop maintenance program	Did not meet the goal. Inventory of structural runoff control is being performed but not completed, yet. performed. No program was established for the stormwater basins and structures. Inspection for the pot-constructions activities were performed.
6	Training for all employee and contractor. Hazardous waste management.	Met the goal. SW Training was performed to all employees of the Town. Hazardous wastes were identified in the municipality and managed along with the County.

C. Stormwater Data Summary

Provide a summary of all information used, including any lab results (if sampling was conducted) to assess the success of the SWMP at reducing the discharge of pollutants to the MEP. For example, did the MS4 conduct visual inspections, clean the inlets, look for illicit discharge, clean streets, look for flow during dry weather, etc.?

- Clean-up event
- Visual inspections were performed in a regular basis to identify any storm water potential issues
- No illicit discharges were identified nor reported
- Inlets like drains were cleaned
- No significant oil spills were identified N
- No flow during dry weather. No sampling was taken.

D. Impaired Waterbodies

1. Identify whether an impaired water within the permitted area was added to the latest EPA-approved 303(d) list or the Texas Integrated Report of Surface Water Quality for CWA Sections 305(b) and 303(d). List any newly-identified impaired waters below by including the name of the water body and the cause of impairment.

No new impaired water identified.

2. If applicable, explain below any activities taken to address the discharge to impaired waterbodies, including any sampling results and a summary of the small MS4's BMPs used to address the pollutant of concern.

Not applicable

3. Describe the implementation of targeted controls if the small MS4 discharges to an impaired water body with an approved TMDL.

Not applicable

4. Report the benchmark identified by the MS4 and assessment activities:

Not applicable

Benchmark Parameter <i>(Ex: Total Suspended Solids)</i>	Benchmark Value	Description of additional sampling or other assessment activities	Year(s) conducted

5. Provide an analysis of how the selected BMPs will be effective in contributing to achieving the benchmark:

Benchmark Parameter	Selected BMP	Contribution to achieving Benchmark

6. If applicable, report on focused BMPs to address impairment for bacteria:

Description of bacteria-focused BMP	Comments/Discussion

7. Assess the progress to determine BMP's effectiveness in achieving the benchmark.

For example, the MS4 may use the following benchmark indicators:

- number of sources identified or eliminated;
- number of illegal dumpings;
- increase in illegal dumping reported;
- number of educational opportunities conducted;
- reductions in sanitary sewer flows (SSOs); /or
- increase in illegal discharge detection through dry screening.

Benchmark Indicator	Description/Comments
Numbers of potential sources identified or eliminated	During regular inspections, no sources were identified
Numbers of illegal dumping detected	During regular inspections, no illegal dumping was detected

E. Stormwater Activities

Describe activities planned for the next reporting year:

MCM(s)	BMP	Stormwater Activity	Description/Comments
1.Public education and outreach	Develop of stormwater brochure	Distribution to houses by mail or hand delivery, also available at Clint offices and Post Office	At minimum 200 brochures will be distributed. Ongoing.
1.Public education and outreach	Public events	Annual public events not limited to Clean Up	Document the number of events and participants, and amount of trash collected. Ongoing.
3.Illicit discharge detection and elimination	Develop written IDDE program	Inspect 100% of major outfalls.	Establish a system to allow for citizen reporting of suspected illicit discharges into the storm water system.
3.Illicit discharge detection and elimination	Update a list and map of outfalls.	Identify the outfalls.	Update the list and map of all MS4 storm water outfalls in priority area
4.Construction site stormwater	Conduct site inspection	Site inspection to determine compliance	Addressing to the construction activities for the home owners and contractors. Ongoing.
6.Pollution prevention/ good housekeeping	Training	Provide training to employees of the city	Refreshment training for preventing and reducing storm water pollution from municipal operations.

F. SWMP Modifications

1. The SWMP and MCM implementation procedures are reviewed each year.

Yes No

2. Changes have been made or are proposed to the SWMP since the NOI or the last annual report, including changes in response to TCEQ's review.

Yes No

If "Yes," report on changes made to measurable goals and BMPs:

MCM(s)	Measurable Goal(s) or BMP(s)	Implemented or Proposed Changes (Submit NOC as needed)

Note: If changes include additions or substitutions of BMPs, include a written analysis explaining why the original BMP is ineffective or not feasible, and why the replacement BMP is expected to achieve the goals of the original BMP.

3. Explain additional changes or proposed changes not previously mentioned (i.e. dates, contacts, procedures, annexation of land, etc.).

No additional changes

G. Additional BMPs for TMDLs and I-Plans

Provide a description and schedule for implementation of additional BMPs that may be necessary, based on monitoring results, to ensure compliance with applicable TMDLs and implementation plans. **NO ADDITIONAL BMP'S ARE NECESSARY**

BMP	Description	Implementation Schedule (start date, etc.)	Status/Completion Date (completed, in progress, not started)
/			
/			
/			
/			

H. Additional Information

1. Is the permittee relying on another entity to satisfy any permit obligations?

Yes No

If "Yes," provide the name(s) of other entities and an explanation of their responsibilities (add more spaces or pages if needed).

Name and Explanation:

Name and Explanation:

Name and Explanation:

Name and Explanation:

2.a. Is the permittee part of a group sharing a SWMP with other entities?

Yes No

2.b. If "yes," is this a system-wide annual report including information for all permittees?

Yes No

If "Yes," list all associated authorization numbers, permittee names, and SWMP responsibilities of each member (add additional spaces or pages if needed):

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

Authorization Number: _____ Permittee: _____

I. Construction Activities

1. The number of construction activities that occurred in the jurisdictional area of the MS4 (Large and Small Site Notices submitted by construction site operators):

23 construction activities by home owner

2a. Does the permittee utilize the optional seventh MCM related to construction?

Yes No

2b. If "yes," then provide the following information for this permit year:

<p>The number of municipal construction activities authorized under this general permit</p>	
--	--

The total number of acres disturbed for municipal construction projects	Not available
---	---------------

Note: Though the seventh MCM is optional, implementation must be requested on the NOI or on a NOC and approved by the TCEQ.

J. Certification

If this is this a system-wide annual report including information for all permittees, each permittee shall sign and certify the annual report in accordance with 30 TAC §305.128 (relating to Signatories to Reports).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
